WEDDING SONG LIST

This is a list to customize your special night in a way that you both want to remember it. Everything I have in bold is optional to you, but if you don't know what to pick...I would be more than happy to pick songs that I think would fit perfectly. Just put a "DC" by that option meaning "djs choice". If you wish to opt out of an option, simply put "NO". I hope this helps you organize your big day!

BRIDAL PARTY GUIDE

If you would like us to announce your bridal party for you please TYPE IT OUT in the exact order you would like us to announce it and the exact way you want it worded. Please spell the names like the way they sound not their true spellings to make it easier to get the name pronounced the right way. Don't forget to include the grandparents if they plan on walking or just standing up from their seats. Also include the way you would like the bride and groom pronounced as well on their grand entrance.

SONG LIST

This is for us to get to know you better we are very skilled in the wedding music selection so no need to include the slides and songs like that just some of your favorites that might not be the typical wedding music.
